EXPERIENCE

UX DESIGNER
Cordata Health Care
Innovations

Create UX and UI solutions for the nurse navigator web experience. Led design projects from early UX explorations to visual QA with the engineering team.
February 2016 - Present

FRONT END DESIGNER
Top Gun Sales
Performance

Created a sales performance tracking application for both the manager and sales person. Involved in all aspects of the product, from brainstorming and defining requirements with PMs to designing, as well as working with engineers to make sure everything comes together.
September 2015 - February 2016

UX DESIGNER
K&R Software

Worked closely with product owners and developers to design products with a user centered approach. Worked with clients at start-ups industries ranging from photography to marketing software.
September 2014 - September 2015

WEB DESIGNER
CINCINNATI STATE

Helped the Cincinnati State marketing team update and create content for both old and new school websites. Created weekly marketing materials for student events.
